

B.I.G. RESTORE!

Brain-Immune-Gut Restoration & More!

This is a **REVOLUTIONARY** Product composed of Shilajit & Naturally Occurring Carbon 60. It is designed to do several key things and it does a lot more.

**Extinguish
Inflammation
& Free Radicals**

**Detoxify
Bind & Clear
Toxins & Debris**

**Restore
Cellular Structure
& Function**

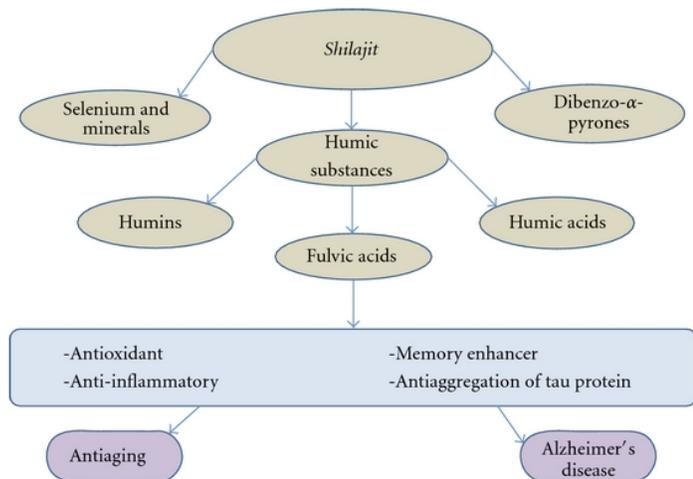

*Brain-Immune-Gut RESTORE works to **Restore Structural Integrity & Function** throughout the body. By Restoring the **'tight junctions'** it dramatically reduces the number of pathogens & toxins entering through the gut, lungs, and mucus membranes thereby reducing the constant activation & overload of the immune system. A primary reason why SO MANY people have immune issues (either weakened or overactive as in autoimmune conditions) is due to weak or leaky tight junctions.

Shilajit contains high amounts of Humic & Fulvic acids, Soil-Based Organisms, & 90 other nutrients. Its MANY benefits include enhancing brain function, blocking tau proteins (assoc. with Alzheimer's), antioxidant & anti-inflammatory, blood builder, antiviral, oxygenation & energy booster, anti-cancer, cardio-protective, helps muscles respond to exercise, increases testosterone & fertility, supports the liver, genitourinary, digestive, & nervous systems.

Carbon 60 is a SUPER-Antioxidant & SUPER-Detoxifier that is able to penetrate EVERYWHERE and work at the subcellular level. In a 2012 study it doubled the lifespan of rats.

Shilajit is one of the most nutritious substances on the planet. References to its benefits go back 5,000 years. It was written about Avicenna, Paracelsus, Al-Biruni, and Aristotle and was believed by many to be the veritable **'Fountain of Youth.'**

No one knows how it is produced although the consensus is that it is ancient decaying plant material compressed & broken down by microorganisms over many thousands of years. It oozes from between rocks in the Himalayas and several other high mountains around the world.

Shilajit is a very complex substance with numerous components including but not limited to Humates, Humic Acids, Fulvic acids, Benzoic acid, Benzoates, Dibenzo-Alpha-Pyrones, minerals, trace minerals (both in organic & ionic forms), vits A, B, C, & P (citrines), phospholipids and polyphenol complexes, terpenoids, alkaloids, amino acids, healthy fats, resins, waxes, carbon 60, soil-based organisms, and several other substances. Fulvic acid itself is extremely complex and contains 70+ nutrients. It is 60-80% organic matter, 20-40% mineral matter, and 5% trace elements.

The only chance of fitting this info on two sides of a page is to create a table that lists many of the benefits associated with some of the substances found in this product.

Shilajit: A 5,000+ year history as a Superfood or Super Supplement believed by many to be “The Fountain of Youth.” Also referred to as “Conqueror of Mountains, Destroyer of Weakness.”

Humates-Humic Acids are a natural constituent of healthy soil, of course, healthy soils are a thing of the past. Humate levels have dropped by over 2/3rds in the past 200 years.

Fulvic Acids have been called the “Elixir of Life” or “Nature’s Perfect Medicine.”

Soil-Based Organisms (SBOs) help to dramatically increase microbiome biodiversity, gut health, and ultimately the health of the entire organism. Under more natural, optimum conditions, the soil our foods are grown in would have billions of soil-based organisms many of which would make it into our food and water. Due to ‘modern’ farming & food processing, this is no longer true.

Carbon 60 may be the most important health breakthrough of the 21st Century.

Functions & Benefits Reported:	Shilajit	Humic	Fulvic	Nat. C60	SBOs
Increases the Oxygen carrying capacity of the blood.	X		X		
Boosts Mitochondrial Energy production.	X		X	X	
Enhances Nutrient absorption & assimilation into cells.	X	X	X		X
Builds up & enhances Immune system functioning.	X	X	X	X	X
Reducing stress hormones.	X		X		
Assists DNA & cell replication, prevents mutations.	X		X	X	
Enhances Microbiome.	X	X	X		X
Assists in cellular Detoxification processes.	X	X	X	X	
Powerful electrolyte & electron donor, charges cells.	X		X	X	
Restores electrical potential to cells.	X		X	X	
Serves as catalyst for nutrients, stimulates metabolism.	X		X		
Antimicrobial, antibiotic, antiviral, antifungal, antiparasitic.	X		X		
Binds, immobilizes, detoxes heavy metals.	X		X	X	
Effective at reducing both acute & chronic pain.	X		X	X	
Helps gut issues (IBS, SIBO, leaky, diarrhea, constipation).	X	X	X		X
Benefits neurological conditions.	X		X	X	
Supports adrenal glands to overcome adrenal fatigue.	X		X		
Antioxidant & Anti-Aging effects.	X		X	X	
Enhances overall strength & health.	X		X	X	
Rich source of minerals in ionic & highly available forms.	X		X	X	
Promotes bone, connective tissue, collagen, & cartilage repair.	X		X		
Enhanced organ repair & bodily defenses.	X		X	X	
Helps maintain stable blood sugar.	X		X		
Boosts Growth Hormone & Testosterone.	X				
Repairs cell structures & tight junctions between them.	X	X	X		X
Prevent & minimize allergies	X				X
Reduce fatigue & enhances energy	X	X	X	X	X
Helps improve sleep	X	X	X	X	X
Anti-Inflammatory & Regulates balance of pro & anti-inflammatory cytokines	X	X	X	X	X
